Wash, wipe and cover

Practise good hand hygiene. Wash your hands frequently and use hand sanitiser frequently. There will be hand sanitiser on site at entrances, bars, food vendors and other locations. However, we encourage you to bring your own.

Did you know hands spread 80% of common infectious diseases?

The influenza (flu) virus, COVID-19 and other potentially harmful airborne illnesses that flourish in winter remain present on hard surfaces for 24 to 48 hours and tissues for 15 minutes.

You can reduce the risk of getting sick or passing infections on to others by following these simple rules:

- WASH your hands regularly
- WIPE down frequently touched surfaces
- COVER your coughs and sneezes

For more information visit the [Wash, Wipe, Cover](#) page.
